

CLAIMS

1. A frozen confectionery product comprising a plurality of discrete water ice confections, each discrete water ice  
5 confection being able to contact directly other discrete water ice confections in the product, which water ice confections comprise an ice structuring protein (ISP), at least 6 wt% solids and have an average volume of less than 1 ml.
- 10 2. A product according to claim 1 which comprises at least 10 discrete water ice confections.
3. A product according to claim 1 which comprises at least  
15 100 discrete water ice confections.
4. A product according claim 1 wherein the discrete water ice confections have an average volume of less than 0.5 ml.
- 20 5. A product according to claim 1 which is an unaerated water ice.
6. A product according to claim 1 wherein the discrete water ice confections comprise at least about 10 wt% solids.
- 25 7. A product according to claim 1 wherein the ISP is a fish type III ISP.
8. A product according to claim 7 wherein the ISP is type  
30 III AFP HPLC-12.
9. A product according to claim 1 wherein the frozen confections comprise at least 0.0005 wt% of the ISP.

10. A product comprising a container filled with a frozen confectionery product according to claim 1.

11. A product according to claim 10 wherein the container  
5 has a volume of from 100 ml to 1000 ml.

12. A retail unit comprising a plurality of containers, each container comprising a product according to claim 1 wherein the product in each container is different.
